What is the FAQ?

Password Protected Health Encyclopedia (FAQ)

Years of study, research and practical application through both private practice and clinical experience have led to a compilation of Frequently Asked Questions (FAQ) with simple effective answers to your health questions.

Your FAQ subscription will give you access to the password-protected section of my website.

The FAQ contains literally thousands of answers instantly available, 24 hours a day, 7 days a week.

No matter where you are or what time it is, you have important health information at your fingertips. For example, if you wake up at 3am with a bladder infection, what natural remedies can you use? Or you've just come down with a terrible sore throat, what can you do to nip this encroaching cold, so you don't get sick?

You'll also find answers to things you didn't even realize you wanted to know (like how to deal with those troublesome headaches you've been getting for years, or why you can't lose weight even though you've changed your diet).

In a nutshell the FAQ provides

- **Questions that have been asked by clients and answered by Brenda Eastwood**
- **Ready references at your fingertips**

- **Answers to things you always wanted to know but were afraid to ask**
- **Information you didn't know you would want to know until you read it**
- **24-hour nutritional assistance**
